Religious Identity in US Politics

MATTHEW R. MILES

“**A**t just the right time, Matt Miles offers this sustained treatment of how political and religious identities intersect, embracing the causal ambiguity between them to explore questions of system support, trust, and political behavior. His book should be required reading for scholars of religion and politics.” —Paul A. Djupe, Denison University

While existing scholarship addresses the influence of religious affiliation on political attitudes and behaviors in the United States, a number of puzzling questions remain unanswered. In response, Matthew Miles demonstrates that a more complete conceptualization of religion as a social identity can help to explain many of those puzzles. As he explores the impact, both positive and negative, of religious identity on political attitudes, he also shows that the religion-politics relationship is not a one-way street.

Matthew R. Miles is associate professor of political science at Brigham Young University–Idaho.
